

Blount County, Tennessee is rich in history and the heritage of Appalachia and the Great Smoky Mountains. This directory is a listing of arts and crafts people of Blount County who present a piece of Appalachia in their work. As you peruse this directory, you will see handcrafts you may have thought long forgotten. You'll find their work intriguing and reflective of the area.

This directory was inspired by the Townsend Advisory Board/Heritage Council, which works to identify and preserve the heritage and beauty of the Townsend area.

Please note that several artists work in their home and do not have a retail shop to showcase their talents. If you wish to view artwork, please call ahead and make an appointment. This directory does list, however, art and craft shops that sell some of our artists' products.

The Townsend Visitors Center exhibit room hosts various artists and crafts people who demonstrate and sell their work throughout the year. Stop by and check out the latest exhibit.
